```cpp
#include
using namespace std;
int main()
{
  /* Comment */
  int n, i, a = 0, b = 1, F;
  cout << "Enter the number of terms of Fibonacci s
      sequence: ";
  cin >> n;
  cout << a << " " << b << " ";
  for (i = 0; i < n - 2; i++)   {
    F = a + b;
    cout << F << " ";
    a = b;
    b = F;
  } cout << endl; return 0;
}
```
